### *Calling In "The One" Core Premises*

#### *Premise #1:*

Life is a creative process and our thoughts, beliefs, assumptions, choices, actions, and words are the tools we use to invent our experiences and our circumstances.

#### *Premise #2:*

We have the ability to create circumstances and opportunities in our lives by setting clear intentions and by committing to and living in alignment with these intentions.

#### *Premise #3:*

When we alter our relationship with ourselves, our external world will alter accordingly.

*"The Calling in 'The One' process was absolutely life-changing. Not only did I meet my future husband as a result, but all the relationships in my life completely transformed. I've never felt so much love, connection, and intimacy before. I can't recommend the program enough."*
